How to keep your health care costs lower

Visit bcbsm.com/hbl for videos, FAQs and other online resources about your plan.

Thank you for being a Healthy *Blue* Living member. Your plan includes an enhanced online well-being experience with state-of-the-art resources to help you take charge of your health and easily navigate your plan. You'll better understand your current health status and what steps to take for improving your well-being — and lowering your out-of-pocket costs.

How your plan works

Healthy *Blue* Living has two benefit levels — enhanced and standard.

The **enhanced level** has lower out-of-pocket costs, such as copayments, deductible and coinsurance.

The **standard level** has higher out-of-pocket costs, such as copayments, deductible and coinsurance.

If you're **new to Healthy *Blue* Living**, you'll start at the enhanced level. You need to complete the tasks on your Healthy *Blue* Living to-do list to remain at this level.

If in your previous plan year you were at:

- **The enhanced level:** You'll be mailed additional details about tasks you need to complete to remain at this benefit level.
- **The standard level:** Complete the tasks for this year to earn back the enhanced benefit level. See **Page 10** to understand how the enhanced level saves you money.

Your personal to-do list

Your own personal to-do list is available through your online member account at **bcbsm.com**.

Use your computer or the web browser on your mobile device to log in to your account. (The to-do list isn't available on our mobile app.) After you've logged in to your account:

1. Click *My Coverage* in the navigation menu.
2. Click *Medical* from the drop-down menu.
3. Click *To-do List*.

Your to-do list will show:

- If your contract is at the enhanced or standard level.
- The tasks you've already completed and the date you did each one.
- Your remaining tasks and the dates they're due.
- Your qualification form results and how your doctor scored you on your health measures. See **Page 6**.

If your qualification form shows you use tobacco or have a body mass index of 30 or higher check your to-do list. A link to enroll in a program will appear along with a deadline date.

NEW Blue Cross Well-BeingSM

Modernized, personalized support for completing your to-dos

We worked with Personify HealthTM to offer you a personalized well-being experience that delivers daily content based on your health and interests. The online well-being resources that come with your Healthy *Blue* Living plan are now better than ever to help you build healthy habits for your whole well-being:

- **Comprehensive health assessment** to identify health risks with recommended steps to take for improvement
- **Weight-management and tobacco coaching** with more accessible, one-on-one support
- **Flexible weight management program** that offers more types of activities to choose from
- **Seamless connection** to more tracking devices and apps, including MyFitnessPalTM and Apple Health

And then there are the extras:

- Subscribers of the plan receive a **\$50 credit toward a physical activity tracker** with more options to choose from, including Apple devices.*
- **Daily self-guided Journeys[®]** for sleeping better, lowering stress, getting fit and other areas of focus
- **Nutrition Guide and Sleep Guide** to support your goals of eating healthy, sleeping well and managing your weight
- **Health care checklist** for tracking exams, screenings and vaccinations

And you can access them conveniently through your member account at **bcbsm.com**. You'll need to enroll in Blue Cross Well-Being to begin your well-being experience. See **Page 9**.

*Not available to spouses and dependents on the plan

Steps to take for the enhanced level

Healthy Blue Living to-do items only apply to you as the subscriber of the plan. Spouses and dependents don't need to complete the tasks; they're assigned to the same benefit level as you.

Be sure to complete each step below by the deadlines that are posted to your to-do list in your account at bcbsm.com.

Within your first 90 days

STEP 01

See your primary care provider to complete your qualification form. Schedule an appointment for a health evaluation to have your doctor check these six health measures:

- a. Tobacco use (cotinine test required)
- b. Body mass index
- c. Blood pressure
- d. Blood sugar
- e. Cholesterol
- f. Depression

Watch a video for instructions on completing your qualification form. Go to:

bcbsm.com/healthyblue90

After your evaluation, tell your doctor to submit your results electronically on a *Blue Care Network Qualification Form*. You'll want to make your appointment with your primary care provider in enough time to submit your qualification form. Qualification forms will be accepted for an office visit that occurred up to 180 days before your plan year began.

STEP 02

Complete an online health assessment.* Take this simple survey to get a clear snapshot of your health. Through your new Blue Cross Well-Being account, you'll get personalized recommendations on ways you can improve your well-being.

1. Log in to your member account at bcbsm.com using your computer or the web browser on your mobile device or tablet.
2. Select *Medical* under the *My Coverage* tab.
3. Click *To-do List*.
4. Click *Take your Health Assessment*.

For video instructions on completing your health assessment, go to:

bcbsm.com/healthyblue90

* The information in your health assessment is confidential and will be disclosed only as permitted by federal and state privacy laws.

Within the first 120 days (if required)

STEP 03

If your qualification form shows your BMI is 30 or higher, enroll and participate in a BCN-sponsored weight-management program to stay at the enhanced benefit level.

NEW You have two new options*:

- **Triple Tracker:** Complete 7,000 steps daily, a 15-minute workout or 15 active minutes — or any combination of the three — at least 20 days a month. You can seamlessly connect to more than 100 apps and devices, including Apple devices.**
- **Lifestyle Coaching:** Attend one 20-minute session with your health coach each month either by phone or messaging.

STEP 04

If your qualification form shows you use tobacco, enroll and participate in the new Blue Cross Well-Being coaching program to stay at the enhanced benefit level.

NEW Your new Tobacco Coaching program*: Attend one 20-minute session with your health coach each month. You can choose to meet with them either by phone or messaging.

If steps 3 or 4 apply to you, we'll mail you details about the programs with instructions on how to enroll.

The deadline dates to enroll in a program will display on your to-do list after we process your qualification form. **Log in to your account** to check your to-do list status. Once we receive a new qualification form from your primary care provider showing a negative cotinine test and/or a BMI under 30, you'll no longer need to participate in these programs.

We don't limit the number of times you can see your doctor to have a qualification form completed, even if you're returning to them after a recent physical less than 12 months ago.

*As of Jan. 1, 2025, we're transitioning our weight-management and tobacco coaching programs to Personify Health™, formerly Virgin Pulse. WW® and WebMD® contracts are ending Dec. 31, 2024. As a Healthy Blue Living member, you can complete your current WW session. After this session, you'll no longer have access to WW through Blue Care Network.

**Any member using Max Go, Samsung Health, Apple Health or Google Fit™ must use the Personify Health app to synchronize them with your Blue Cross Well-Being™ account. Search "Personify Health" in the App Store® or Google Play™ to download the app. Once synchronized, you can monitor your fitness activities in either the Personify Health app or your online member account.

Starting Jan. 1, 2025, register for Blue Cross Well-Being to access these programs. See **Page 9** for instructions. Your previous well-being account information doesn't transfer.

Understand your *Blue Care Network Qualification Form*

The qualification form has six important health measures. During your appointment, your primary care provider will check and score each one:

A = You've met the recommended target.

B = You didn't meet the recommended target, but you've agreed to take the right steps to improve the health measure.

C = You didn't meet the recommended target, and you won't commit to your doctor's treatment plan or enroll in a BCN program for weight or tobacco.

Target these health measures

A's and B's will keep you at the enhanced benefit level if you complete everything else on your to-do list.

Scoring C's will move you to the standard level with higher out-of-pocket costs.

Health measure	Target to score an "A"	If you don't score an "A," do this for a "B"
Tobacco	Blood or urine cotinine test confirms no tobacco use*	Tell your doctor you'll enroll and participate in BCN's Tobacco Coaching program until a new qualification form shows you don't use tobacco.
Weight	BMI under 30	Tell your doctor you'll enroll and participate in a BCN-sponsored weight-management program until a new qualification form shows your BMI is under 30.**
Blood pressure	Below 140/90	Commit to and follow your doctor's treatment plan.
Blood sugar	Fasting blood sugar or A1C at or below target	
Cholesterol	LDL-C is below target (based on risk factors: <100, <130 or <160)	
Depression	Any symptoms of depression are well-controlled	

*After one negative test, no testing is needed again. Self-reported tobacco users don't need the test.

**Consult with your doctor before starting any regular exercise or program.

Did you score all A's on your qualification form?

You don't need to complete a qualification form and health assessment every year if you scored all A's on your most recent qualification form. If you're younger than 40, you'll need to submit a qualification every three years. If your age is 40 or older, you submit one every two years.

We'll send you a letter when it's time to submit one. Or **check your to-do list** by logging in to your account at bcbsm.com.

Your doctor's office must electronically submit your qualification form

The paper qualification form you received with your guide serves only as an example.

Your doctor's office might not submit your qualification form right after your appointment. **Log in to your account at bcbsm.com** to check your to-do list a week after your appointment to confirm it's been submitted. If not, call your doctor's office to remind them you're a Blue Care Network member with the Healthy *Blue* Living plan, and they need to submit the form to us before your deadline.

We're committed to helping you achieve your best health status. Lower out-of-pocket costs for participating in our well-being health care plan, Healthy *Blue* Living, are available to subscribers who meet all qualification requirements. If you think you might be unable to meet a standard or requirement under this plan, you might qualify for an opportunity to earn lower out-of-pocket costs by different means. You can work with your BCN primary care provider to find an alternative that's right for you in light of your health status.

What the enhanced level can mean for you

The example below can help you understand how the enhanced level works for your plan. These sample costs are meant to illustrate examples of the types of savings you could see; they're not specific to your plan. Other costs may apply in this scenario if other tests occurred and health issues were present. Log in to your account at bcbsm.com to view your plan documents. Your account also displays costs that are based on whether you're at the enhanced or standard level.

Meet Jennifer

Jennifer has Healthy *Blue* Living. She did her health assessment and saw her doctor a month after her plan started. After her visit, Jennifer's doctor submitted her qualification form electronically to make sure we received it within the first 90 days of her plan year. Jennifer didn't have any 120-day tasks because her BMI is below 30 and she doesn't use tobacco.

A trip to the emergency room

Jennifer tripped on her stairs at home. She was in severe pain after the fall and thought her ankle was broken so she went to the emergency room.

By doing the items on her to-do list, Jennifer was at the enhanced level and **saved \$550 on her out-of-pocket costs.**

	Enhanced-level situation (completed to-do items)	Standard-level situation (incomplete to-do items)
Total cost for emergency room trip	\$3,000	\$3,000
Jennifer pays:		
Deductible	\$500	\$1,000
Copayment	\$100	\$150
Her plan pays	\$2,400	\$1,850
Jennifer's total cost	\$600	\$1,150

Your savings apply to all health care services

You don't just save on emergency room visits. Your out-of-pocket cost savings apply for trips to your doctor and urgent care, as well as prescriptions and other services that are part of your benefits, such as physical therapy.
