Keeping an eye on your health

It takes more than just medical care to maintain a healthy lifestyle. Your eye doctor can be the first health care professional to identify serious conditions including diabetes, hypertension and heart disease during a routine eye exam. Your eye doctor plays a key role in keeping you healthy, and your Blue VisionSM plan, administered by VSP, from Blue Cross Blue Shield of Michigan will help.

With your vision plan, you get:

- Convenient access to the nation's largest network of eye doctors in medical office and retail settings through our partnership with VSP[®] Vision Care^{*}.
- Benefit coverage for eye care, preventive services and corrective treatment.
- Single sign-on connectivity between your Blue Vision and VSP member accounts. Simply log-in to your Blue Cross member account and click *Go to VSP*. No additional set up required.
- Significant discounts on prescription sunglasses, additional pairs of prescription glasses, LASIK, lens options, and hearing care.

What to expect at your eye exam

During your exam, your doctor will evaluate your medical and eye history and conduct tests to determine:

- How far away you can see
- How well your eyes work together and on their own
- The inner pressure of your eyes (glaucoma checkup)
- If you are at risk for various eye conditions

Get started today

1. Choose a Blue Vision doctor from the VSP network. Login to your Blue Cross member account at **bcbsm.com**, select *Vision* from the *My Coverage* menu and select *Go to VSP*, or call **1-800-877-7195** to find doctor that's right for you.
2. Make an appointment and tell the doctor you have VSP benefits as part of your Blue Vision plan.

IMPORTANT: The doctor must use your Blue Cross ID number to verify eligibility
3. It's as simple as that. No need to complete a claim form. We'll handle the rest.

Blue Vision coverage is accepted at national retail chains**
